PERMISSION TO ACCESS PRIVATE PROPERTY	
<input type="radio"/>	I SUPPORT the Southern Norfolk Sand Plain Private Lands <i>Phragmites</i> Control Program and I grant permission for the Long Point <i>Phragmites</i> Action Alliance (LPPAA) to access my property, with prior notification at mutually agreeable times, to identify and map invasive <i>Phragmites australis</i> for the purpose of informing a regional control program. If <i>Phragmites</i> is located on my property, I understand that only data needed to inform the control of this species will be collected. I understand that detailed control methods with timelines for control work will be shared with me prior to implementation on my property and that I reserve the right to withdraw my permission for property access at any time.
<input type="radio"/>	I PREFER NOT TO SUPPORT the Southern Norfolk Sand Plain Private Lands <i>Phragmites</i> Control Program at this time. I do not grant permission for the Long Point <i>Phragmites</i> Action Alliance to access my property.
CONTROL AND MANAGEMENT PREFERENCES, IF <i>PHRAGMITES</i> IS LOCATED ON YOUR PROEPRTY	
<input type="radio"/>	I acknowledge that chemical control is the most effective and efficient approach for managing <i>Phragmites</i> and I grant permission to apply herbicide to <i>Phragmites</i> located on my property in accordance with Ontario's <i>Phragmites</i> Best Management Practices. I have discussed this matter with all other parties having ownership interest in this property and I am authorized by them to consent on their behalf. I am aware that the details of chemical control on my property will be shared with me at a later date, and at that time, additional permission forms will be required prior to control work on my property.
<input type="radio"/>	I prefer no chemical control on my property at this time.
<input type="radio"/>	I have an agricultural pesticide exterminator license and would be interested in assisting with the control of <i>Phragmites</i> on my property.
